### DEFORMABLE DESIGN

The lamp heads can be adjusted any angle as you like.

Application Scenario: Home/Business Premises/Factory Garage

### QUICK INSTALLATION

Garage Light Fixture is easy to Install. No tools required, No Wiring and No Professional Electricians required, just screw in Medium Base socket(E26/E27), it works. No Harmful Substances such as mercury and lead, No radiation, 100% safe and easy to install.

### 90° OMNIDIRECTIONAL ILLUMINATION

Quadruple aluminum LED panel heads can be adjusted, each light head can be folded up to 90°. The maximum coverage angle can reach 360°, this will make the light cove a wide area.

### SAFETY

#### ▲ INDOOR USE ONLY

Do not use outdoor, as the lamp holder is not waterproof.

#### ▲ WARNING

This deformable lamp has high brightness, please protect your eyes from excessive light damage. Do not stare at the light for a long time. Do not touch the LED panel after long time using.
